My hobbies

I love sports. I often play basketball after school and I always do fencing on Saturday mornings. In fencing, we fight in pairs. To score a point, we need to touch the other fighter with our sword. Don't worry — we never get hurt because we wear special clothes.

James, China

I like outdoor activities best. In summer, I often go cycling in the countryside with my brother. In winter, we sometimes go ice-skating. There is a lake near our house. In winter, it freezes so it is great for ice-skating. When I was little, I fell over a lot. Ouch! Now I seldom fall over when I go ice-skating.

Hi kids! This month we are talking about hobbies. What do you usually do in your spare time? Write and tell us!

Most people think that I prefer indoor activities because I am in a wheelchair. They are wrong! I never read magazines or play board games. I like outdoor activities best. I sometimes go horse-riding at weekends. I love it! When I am on a horse, nobody knows that my legs don't work. When it runs, I feel like I am flying.

Beth, the UK

I love music. I play the guitar. I practise a lot in my spare time. My best friend plays the drums and my sister is really good at singing. We have a band called 'The Black Cats'. We practise in the garden every Sunday. One day we will be famous!

Macy, the USA

Do you prefer indoor or outdoor activities? Why?
